

**NOTE TO  
PARENTS**

## *Bringing learning to life*

**SEEDS OF LEARNING** is an initiative of Ontario's public elementary teachers, paid for by their union - the Elementary Teachers' Federation of Ontario (ETFO).

The goal is to bring learning to life for elementary students.

Your child's early years in school are critical. Our role as elementary teachers is to help your child get off to a good start.

**SEEDS OF LEARNING** is one way ETFO is working with parents to help our children succeed. There are others - including helpful tips for parents on reading and homework.

To find out more, please go to [www.etfo.on.ca](http://www.etfo.on.ca).
